PROFESSIONAL SUMMARY

Final-year B.Tech Computer Science student at Quantum University with hands-on experience in software development through an industry internship and multiple full-stack web projects. Proficient in HTML, CSS, JavaScript, Python, Git, and GitHub, with experience building responsive web applications, integrating REST APIs, and developing machine learning solutions. Passionate about software engineering, problem-solving, and continuously learning modern technologies while contributing to impactful products.

EDUCATION

Bachelor of Technology (B.Tech) – Computer Science Engineering

Quantum University, Roorkee, Uttarakhand, India

Expected Graduation: June 2027

TECHNICAL SKILLS

Programming Languages : Python, JavaScript, C

Frontend Technologies : HTML5, CSS3, JavaScript, Responsive Web Design

Machine Learning : Scikit-learn, Pandas, NumPy

Tools & Platforms : Git, GitHub, GitHub Pages, VS Code

Web Development Concepts:

REST API Integration • Fetch API • DOM Manipulation • Local Storage • Responsive Design

PROJECTS

TaskFlow – Modern Task Management Dashboard

Technologies: HTML5, CSS3, JavaScript, Local Storage, Git, GitHub Pages

GitHub: [GitHub](#) | **Live Demo:** [Live Demo](#)

- Developed a responsive task management application using HTML, CSS, and JavaScript.
- Implemented task creation, editing, deletion, pinning, search, category filtering, priority management, and due-date tracking.
- Built a live analytics dashboard with task statistics, progress tracking, and overdue task detection.
- Integrated Local Storage to persist user data without requiring a backend database.
- Deployed the application using GitHub Pages with complete project documentation on GitHub.

Personal Portfolio Website

Technologies: HTML5, CSS3, JavaScript, Git, GitHub Pages

- Designed and developed a fully responsive personal portfolio website to showcase projects, technical skills, certifications, and contact information.
- Implemented a modern, mobile-friendly interface with smooth navigation and responsive layouts across devices.

- Integrated GitHub, LinkedIn, live project demos, and downloadable resume for easy recruiter access.
- Deployed the website using GitHub Pages and optimized it for performance and usability.

Weather App

Technologies: HTML5, CSS3, JavaScript, REST API, Fetch API

- Developed a responsive weather application that retrieves real-time weather information using a public Weather API.
- Implemented city-based search with temperature, humidity, wind speed, and weather condition updates.
- Integrated JavaScript Fetch API for asynchronous API requests with proper loading states and error handling.
- Designed dynamic weather-based backgrounds and responsive layouts to improve user experience across devices.

House Price Prediction

Technologies: Python, Pandas, NumPy, Scikit-learn

- Developed a machine learning model to predict housing prices using regression algorithms and real-world housing datasets.
- Performed data cleaning, preprocessing, feature engineering, and exploratory data analysis to improve model quality.
- Trained and evaluated regression models using Scikit-learn and analyzed prediction performance.
- Leveraged Pandas and NumPy for efficient data manipulation and feature processing.

Experience

JavaScript Intern | Infowiz Technologies, Chandigarh

July 2024

- Successfully completed a 120-hour industry internship focused on JavaScript and modern web development.
- Developed interactive web applications using HTML, CSS, and JavaScript, with emphasis on DOM manipulation and event handling.
- Worked on hands-on coding assignments involving functions, events, form validation, and dynamic user interfaces.
- Improved debugging, problem-solving, and code optimization skills through practical development exercises.
- Collaborated with mentors, participated in code reviews, and gained exposure to software development best practices.

Certifications

- **Full-Stack Web Development Bootcamp — Udemy (61.5 Hours)**
- **JavaScript Training Certification — Infowiz Technologies (120 Hours)**
- **Operating Systems (CS401) — Saylor Academy (120 Hours, 94%)**
- **Introduction to Cryptography & Network Security (CS260) — Saylor Academy (50 Hours, 87.5%)**
- **Introduction to Python (CS105) — Saylor Academy (41 Hours)**

- **Trust and Security with Google Cloud — Simplilearn SkillUp**

ACHIEVEMENTS

- Successfully completed a **120-hour JavaScript Industry Internship** at Infowiz Technologies.
- Built and deployed multiple responsive web applications using **HTML, CSS, JavaScript, and GitHub Pages**.
- Developed a machine learning project using **Python, Pandas, NumPy, and Scikit-learn**.
- Created and published a professional portfolio website and live project demonstrations.

SOFT SKILLS

Problem Solving • Communication • Team Collaboration • Leadership • Analytical Thinking • Time Management
