PROFESSIONAL SUMMARY

Final-year B.Tech Computer Science student at Quantum University with a strong interest in Frontend Development and Software Engineering. Experienced in building responsive web applications using HTML, CSS, JavaScript, and Python, with hands-on experience in Git, GitHub, and Machine Learning. Passionate about creating user-friendly applications, solving real-world problems, and continuously learning modern technologies.

EDUCATION

Bachelor of Technology (B.Tech) – Computer Science Engineering

Quantum University, Roorkee, Uttarakhand, India

Expected Graduation: 2027

TECHNICAL SKILLS

Programming Languages:

Python, JavaScript, C

Web Technologies:

HTML5, CSS3, JavaScript, Responsive Web Design

Machine Learning:

Scikit-Learn, Pandas, NumPy

Tools & Platforms:

Git, GitHub, GitHub Pages, VS Code

Concepts:

Responsive Design, Local Storage, REST API Integration

PROJECTS

TaskFlow – Modern Task Management Dashboard

Technologies:

HTML5, CSS3, JavaScript, Local Storage, Git, GitHub Pages

- Developed a modern responsive task management dashboard using HTML, CSS, and JavaScript.
- Implemented task creation, editing, deletion, pinning, search, category filtering, and priority management.
- Added due-date tracking, overdue detection, live dashboard analytics, and progress tracking.
- Used Local Storage to persist user data without requiring a backend.
- Designed a fully responsive interface optimized for desktop and mobile devices.
- Published the project using GitHub Pages and documented it with a professional README.

Personal Portfolio Website:

Personal Portfolio Website

Technologies:

HTML, CSS, JavaScript

- Designed and developed a responsive portfolio website.
- Showcased projects, certifications, skills and contact information.
- Hosted using GitHub Pages.

Weather App:

Weather showing app

Technologies:

HTML, CSS, JavaScript, REST API

- Developed a real-time weather application using API integration.
- Implemented city-based weather search with temperature, humidity, wind speed, and weather condition display.
- Added dynamic weather-based backgrounds, weather icons, loading states, and error handling.
- Used JavaScript Fetch API for asynchronous data retrieval and responsive UI updates.

House Price Prediction:

House Price Prediction using Machine Learning

Technologies:

Python, Pandas, NumPy, Scikit-Learn

- Developed a machine learning model to predict house prices using housing datasets.
- Performed data cleaning, preprocessing and feature engineering.
- Trained regression models and evaluated prediction performance.

Gym Management Website:

Gym Management Website

Technologies:

HTML, CSS, JavaScript

- Developed a responsive website for gym management.
- Designed user-friendly interfaces for managing records.
- Implemented modern front-end design principles.

Analog Watch:

Real-Time Analog Watch using JavaScript

Technologies:

HTML, CSS, JavaScript

- Built a real-time analog clock using JavaScript.
- Implemented dynamic hand movement synchronized with system time.

Experience**JavaScript Intern | Infowiz Technologies, Chandigarh**

July 2024 – July 2024

- Completed a 120-hour industry internship focused on JavaScript development.
- Learned core JavaScript concepts, DOM manipulation, events, functions, and web development fundamentals.
- Worked on practical coding assignments and hands-on development tasks.
- Improved problem-solving, debugging, and software development skills.

- Collaborated with mentors and participated in professional development sessions.
-

Certifications

- **Full-Stack Web Development Bootcamp — Udemy (61.5 Hours)**
 - **JavaScript Training Certification — Infowiz Technologies (120 Hours)**
 - **Operating Systems (CS401) — Saylor Academy (120 Hours, 94%)**
 - **Introduction to Cryptography & Network Security (CS260) — Saylor Academy (50 Hours, 87.5%)**
 - **Introduction to Python (CS105) — Saylor Academy (41 Hours)**
 - **Trust and Security with Google Cloud — Simplilearn SkillUp**
-

ACHIEVEMENTS

- Completed 5+ technical certifications totaling 270+ learning hours.
 - Developed 4+ academic and personal projects.
 - Built machine learning and web development applications independently.
-

SOFT SKILLS

- Problem Solving
- Communication
- Team Collaboration
- Leadership
- Analytical Thinking
- Time Management
